FIRE HYDRANT USE PERMIT

Name of Company:	Phone:
Address:	
Type of Usage Approved:	

I/We have read and understand the Huntsville Utilities Fire Hydrant Water Use Policy, and do hereby agree to abide **by** said Policy for all water obtained from fire hydrants in the Huntsville Utilities Water System. All tanks or receptacles shall be filled in a manner which prevents any chance of backflow or back siphonage into the Huntsville Utilities Water System. (Air gap or RPZ backflow prevention device will be required.) I/We agree to use proper fire hydrant wrenches and to open and close fire hydrant **SLOWLY** to prevent problems in the Water System, and to be totally responsible for any and all damages to fire hydrants, city water mains, customer's plumbing or other parts of the Water System caused by improper use of fire hydrants. Signature below shall indicate acknowledgment of these responsibilities and liabilities.

I/We understand this permit is good for one year only (July 1, 2009 - June 30, 2010) and that it must be renewed on an annual basis. It is also understood and agreed that failure to properly notify Huntsville Utilities of fire hydrant usage shall be sufficient cause for increased charges or for revocation of this permit.

City wide hydrant usage does not include private hydrants (hydrants painted red), as they are restricted to fire protection use only. Huntsville Utilities reserves the right to deny use of certain hydrants in low pressure areas and to suspend this permit during a critical water shortage.
